

CRIMINAL DATABASE

ACTIONABLE DATA = POWERFUL RESULTS

Access and utilize the Captis Database within your ecosystem, securely and in full compliance with regulations

Over 60 million public criminal files with high-resolution images and dossiers

Over 200,000 records added each week, from over 25,000 different government agencies

Directly linked to Captis On-Demand Subject Intelligence and Automatic Subject Intelligence services

LEVERAGE THE POWER OF CRIMINAL DATA

At Captis Intelligence we know criminal data. We employ some of the world's foremost experts in data management and criminal intelligence. The Captis Database was designed to deliver the higher level of intelligence you need for a better outcome.

TECHNOLOGY PARTNERS

From surveillance camera manufacturers to enterprise video management systems, we ignite innovation and strategic partnerships. The Captis Database operates as a central component to bridge the gap between surveillance and subject intelligence.

BUSINESSES

Corporations relying on antiquated and conventional methods to identify criminals are at a significant disadvantage. Captis is at the forefront of criminal intelligence solutions with a number of "industry firsts", including the first face-matching system directly tied to the world's largest private database of 60 million criminal files.

DATA PARTNERS

Identification management, Know-Your-Customer (KYC) and risk mitigation processes have become a key global focus without a strong focus on identification accuracy. The Captis Database provides data partners with a seamless and highly accurate intelligence and identification process made for today's needs.

Captis Database operates as a central component to bridge the gap between surveillance and subject intelligence

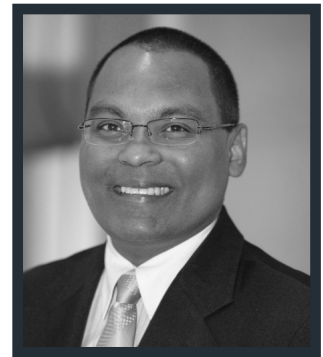

CHARLES ARCHER

FORMER ASSISTANT FBI DIRECTOR
CHAIRMAN OF LAW ENFORCEMENT COUNCIL

"Suspect identification issues are relevant in all facets of crime, safety, and security. Current technology offers a variety of reactive solutions that do not address the needs of the law enforcement and asset protection community. Now, like never before, we can identify, locate, investigate, and apprehend suspects with Captis Intelligence's game-changing system."

ROHAN GUNARATNA

CAPTIS INTELLIGENCE
MEMBER OF ADVISORY BOARD

"Captis Intelligence understands the importance of exclusive terrorist data being utilized by not only nations and states, but within private industries, where valuable intelligence can prevent fatal events."
