

Access the largest private criminal database in North America directly from your

MILESTONE XPROTECT

Download the Captis ODSI plug-in from the Milestone Marketplace, register your existing camera(s), and begin your unlimited ODSI access with Captis

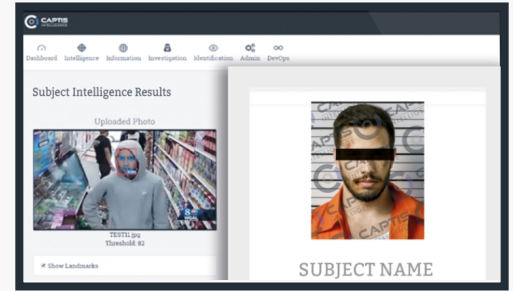

HOW THE CAPTIS ODSI PLUG-IN WORKS

Simply pause the playback video from your Milestone XProtect

Click the logo at the bottom of your selected video screen

Instantly scan the face across The Captis Database of over 75 million criminals in North America

No additional hardware required. For best results, Captis recommends using cameras with a minimum resolution of 720x480 with proper field of view adjustments suitable for facial capture.

Captis Intelligence's ODSI (On Demand Subject Identification) is now available for download on the Milestone Marketplace: milestonesys.com/community/marketplace/what-is-marketplace

Instantly scan a facial image from your Milestone XProtect now

Powerful identification results in one click, all within your existing Milestone interface
