

Captis Intelligence Teams Up with ADT to Expand Distribution of its I-4 Crime Solutions

New Reseller Agreement Brings Advanced Security and Crime Prevention Solutions to ADT's Retail and National Account Customer Base

LOS ANGELES, CA – 05/01/19 / PR Newswire

Captis Intelligence, a leading provider of I-4 crime solutions (Intelligence, Information, Investigation, Identification) today announced that it has signed an agreement with ADT as a reseller of its pioneering I-4 technology. This latest agreement with ADT continues the Company's rapid expansion of its distribution channels.

Headquartered in Boca Raton, Florida, ADT is the leading provider of monitored security and interactive home and business automation solutions in the United States and Canada. Through a series of recent strategic acquisitions, ADT is also now one of the largest commercial integrators in the country. The Captis I-4 system will be part of ADT's offerings to its retail and national account customers and will be supported by Captis' corporate office located in Los Angeles.

The announcement comes in the wake of a major acceleration in growth for Captis which has recently signed a number of Fortune 500 clients to national contracts involving thousands of locations. The rapid growth, in large part, can be attributed to Captis' innovative product platform comprised of several industry-first solutions.

"We have heard how effective the Captis I-4 system is from several large retailers," said Rex Gillette, Vice President of Retail Sales for ADT. "As our customers security needs continue to grow and evolve, we are constantly looking to add exciting new technologies to our portfolio to meet those evolving needs."

Partnering with Captis will provide ADT access to the powerful I-4 system which unifies several industry-first technologies within 4 categories of Intelligence, Information, Investigation, and Identification. Features such as 2-layer Identification, PRISM (Protective Research & Investigation in Social Media), and Solveacrine.com access, are just a few of the solutions that make up the Captis I-4 cloud-based system.

"We have strategically pursued specific market verticals with significant partners who share our vision and have a high-level of expertise" stated Kirk Brown, Vice President of Business Development with Captis Intelligence. "ADT is the premier provider in the electronic security and alarm market and we are excited to partner with them" added Brown.

The Captis I-4 system will be displayed in ADT's booth at the upcoming RILA show May 5-8th in Denver Colorado.

About Captis Intelligence

Captis Intelligence's I-4 platform (Intelligence, Information, Investigation, Identification) provides an advanced cloud-based system for public and private sector applications. Captis unifies situational awareness, geographic crime intelligence, social media investigation, subject identification, criminal databases, access to solveacrine.com, and secured information exchange portals for neighboring businesses and law enforcement with a "Subject Tracker" capability providing notification alerts when a subject is being investigated by more than one user. A global innovator, Captis is headquartered in Los Angeles and has offices in London and Singapore. Captis was founded on the principle of innovation and remains at the forefront of pioneering I-4 crime prevention/suspect identification technologies.
