

Immix Signs Global Technology Agreement with Captis Intelligence

Partnership will bring the monitoring industry's first face-matching solution

LOS ANGELES, CA – 10/28/22 / PR Newswire

Captis Intelligence, a leading provider of I-4 crime solutions (Intelligence, Information, Investigation, Identification) announced that it has signed a global agreement with Immix Software LLC. The new partnership will integrate Captis' ODSI solution into the Immix security monitoring software used in central stations and security monitoring centers around the world, allowing professional monitoring agents the ability to scan surveillance face-images across the exclusive Captis database of over 85 million criminals.

Headquartered in Tampa Florida, Immix is a leading worldwide developer of monitoring software installed in the world's most demanding security operating center environments. The partnership with Captis will introduce an industry-first identification solution to the monitoring industry, continuing Immix's commitment in delivering cutting-edge solutions tailored to the needs of their customers.

"The integrated Captis ODSI solution effectively sets the next generation of elevated intelligence for professional monitoring companies while providing a frictionless experience within the Immix platform" said Chris Brown, CEO of Immix. "Today, companies are faced with more complex security challenges which impose higher demands on our monitoring partners" added Brown. "The unique industry-first Captis solution provides our partners with a powerful capability of identifying high-threat subjects in seconds within a legal framework of state, county, and federal open-source intelligence"

The announcement comes in the wake of a major acceleration in growth for Captis which has surpassed 85 million database criminal files in dozens of categories including wanted suspects, sex offenders, terrorists, and financial crime violators. Captis' roster of Fortune 500 clients continues to expand and further cement ODSI as a critical component in security operations. "We are extremely pleased to partner with Immix" stated Dario Brebric, President of Captis. "Immix not only shares our values, innovation and passion for solving unique surveillance challenges, but are dedicated in presenting an identification solution that can result in better outcomes and save lives" added Brebric.
