

SOLVEACRIME.COM HARNESSSES THE POWER OF DIGITAL COMMUNICATIONS

Powerful Deterrent - view rates of 100,000 people within 48hrs

A worldwide community of over 20 million registered users

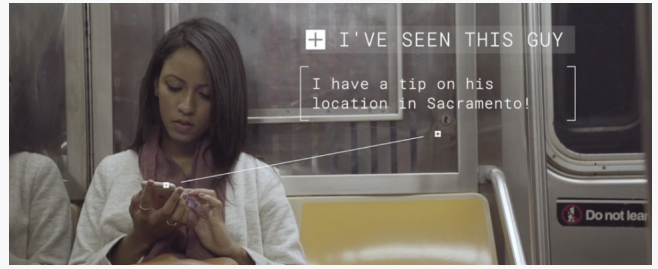

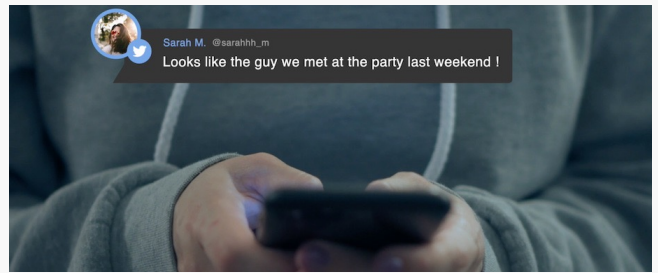

70% reduction in future criminal incidents at same location

Captis Intelligence's Solveacrim.com platform tackles the ever-increasing problem of underfunded law enforcement agencies conducting costly and labor-intensive investigations on a rapidly increasing flow of crime incidents captured on private surveillance systems.

Solveacrim.com incidents are delivered to a highly engaged audience within a 50-mile radius of where the crime occurred. The vast Captis Community is comprised of 20 million registered users across multiple social media conduits and community watch organizations.

Through its amplification by social reaction, the network of viewers multiplies, and anonymous tips generated. View rates of over 100,000 people within 48 hours is common and the deterrent is definitive. In over 70% of cases, Solveacrim.com has resulted in a significant reduction in future criminal incidents occurring at the location.

CHARLES ARCHER

FORMER ASSISTANT FBI DIRECTOR
CHAIRMAN OF LAW ENFORCEMENT COUNCIL

"Solveacrim.com has harnessed the power of today's digital communications to form a highly effective identification and criminal deterrent system. The ability to quickly reach 100,000 engaged viewers in a defined geography not only produces valuable tips but also delivers a powerful deterrent message to potential criminals"
